**HOME TREATMENT.**

Catarrh Cures by Thousands.

Dr. Hartman.

As a result of the changeable climate catarrh has become one of the most prevalent and universal diseases known to man. Nearly one-third of the people of the United States are afflicted with catarrh in some of its many phases or stages. Add to this the fact that catarrh rapidly tends to become fixed or chronic, also the further fact that it is capable of producing a great many other disorders and you begin to realize the true nature of this disease. So formidable has catarrh become that in every city or town of any size numerous doctors are to be found who make the treatment of catarrh a specialty. Of course a great deal of good is accomplished in this way, but as yet a comparatively small number of the people can avail themselves of this treatment because of the great expense necessarily attached to it.

To all such people Dr. Hartman's treatment comes as a great boon. Not only is it more successful in curing catarrh than the treatment of the catarrh specialists, but it is in the reach of every person in this land. A medicine which is the principal part of Dr. Hartman's treatment, known as Pe-ru-na, can be bought at any drug store, and is a remedy without equal for catarrh in all forms, coughs, colds, bronchitis, consumption and all climatic diseases of winter.

Address The Pe-ru-na Drug Manufacturing Company of Columbus, O., for a copy of their latest book, entitled "Climatic Diseases." Sent free to any address. This book contains a full description of the treatment of catarrh, pointing out to every victim the road to aware and permanent cure.

MESSRS. LEPPMAN BROS., SACRAMENTO, CALIF.—I would like to add my testimony to the almost miraculous effect of P. E. P. in the case of Mary Ingraham, a woman living on my place; she had a constant cough, sore throat, debility, etc., and was emaciated to a degree that she was unable to get out of bed unaided, being given up by physicians, she had taken the infamous so-called Blood Medicines without the least effect, until being put under the P. E. P., she immediately began to improve and is now in as good health as ever in her life. You can refer to me at any time to the effects of P. E. P. in the foregoing case.

Yours truly, SAMUEL CHEESE.
